

WORKPLACE BIG FIVE PROFILE™ CERTIFICATION PROGRAM

Supported by Workforce Singapore

Why WorkPlace Big Five Profile™?

The Workplace Big Five Profile™

is based on the Five-Factor Model of Personality.

Paradigm Personality Labs introduced the WorkPlace Big Five, which is based on the Five-Factor Model of Personality, to the business world and begun using it with clients across the United States in the early 1990's. Derived from current and well respected university research that used high speed computers for complicated data analysis, the model is not based solely on theory. Rather, it is based on concrete, empirical, data-indisputable facts that are reliable, valid, repeatable, and hold up under intense scrutiny.

Too many of today's human resource initiatives take a one-size-fits-all approach with their workforce, leaving many employees feeling misplaced and under-utilized. We believe in providing simple ways to understand complex human behaviors and preferences.
